

Préstiges Hélió 2015

Kippenheim, 7th December 2015: Prohélió, the French association for promoting rotogravure, awarded end of November the Préstiges Hélió for the 27th time.

The day program included a visit to the company Wipak Gryspeert in the morning, followed by a packaging forum in the afternoon in the Auditorium of the Palais des Beaux-Arts in Lille. The day was concluded with a Gala Dinner at the Hermitage Gantois in Lille, France - a stylish setting for the celebration and the award winning ceremony.

Among various Janoschka clients, who have been awarded for outstanding printing challenges, Sleever International won two of the high-ranking Prestige prizes: the “Super Prestige” and the “Prestige Graphique”. The French Janoschka Site MTH, located near Chartres, in the southwest of Paris, is proud to have supplied the printing cylinders for both projects.

Winners are selected in thirteen categories and different printing substrates. The printers are primarily rewarded for a perfect realisation of printing quality, technically challenging and innovative packaging.

"We congratulate our customers on this great success. To be on the award list every year speaks for itself and shows the quality and the skill of each printer. We are proud to have been able to contribute to this performance as the chosen prepress partner," says Philippe Gallois, Sales Director of Janoschka France.
