digital printing on various surfaces

janoschka

Digital Printing

Your Benefits

janoschka

State-of-the-art digital printing on various printing materials like glass, acrylic glass, anodized aluminum, wood surfaces or ceramic is our solution for your individual interior design concepts.

Different designs of your choosing can be combined together in a single print run. We manage your projects in a cost efficient manner with short lead times, flexible quantities, and high quality standards, allowing you to benefit from high flexibility and fast response times.
