# Web Services

product group\_ **Workflow & Information Management**

central archiving management, digital asset management,  
information management, iPack, PAS Media, WebCenter

**janoschka**

## Your Benefits

If you want to manage all your metadata alongside the entire process from idea to the shelf, we have a solution. Our automation of workflows and approval processes reduces the time needed for development, ensuring your projects are ready for the market quickly and giving you full control to reduce defects. You work with a tailor-made process and information workflow linking all partners of your printing supply chain to guarantee a fast response.

Our solution ensures that your assets are always available at the right time, in the right place and in the right language, in order to achieve effective collaboration for global branding.

Our integrated workflows allow you to plan and control your prepress activities, both on a local and on a global level. Agility and flexibility are key concepts in our processes, which allow us to meet your current and future needs.

## Applications

- Global brand management
- Printing process management
- Business process management
- Portals & collaboration
- Monitoring dashboard
- Process optimization

## Methods & Processes

- Business process logic analysis
- Web based interfaces
